The Zoning Ordinance imposes the following standards on the use requested by the applicant. No Special Use Permit shall be recommended by the Planning Board unless such Board shall find the following standards to be satisfied:

Standard 1: That the establishment, maintenance, or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare.

Standard 2: That the special use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood.

Standard 3: That the establishment of the special use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.

Standard 4: The exterior architectural appeal and functional plan of any proposed structure will not be so at variance with either the exterior architectural appeal and functional plan of the structures already constructed in the course of construction in the immediate neighborhood or the character of the applicable district, as to cause a substantial depreciation in the property values within the neighborhood.

Standard 5: Adequate utilities, access roads, drainage and/or necessary facilities have been or are being provided.

Standard 6: Adequate measures will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.

Standard 7: That the special use shall, in all other respects, conform to the applicable regulations of the district in which it is located, except as such regulations may, in each instance, be modified by the Town Board pursuant to the recommendations of the Planning Board.

Conditions and Guarantees:

Prior to granting of any special use, the Planning Board may recommend, and the Town Board may stipulate, such conditions and restrictions upon the establishment, location, construction, maintenance, and operation of the special use as is deemed necessary for the protection of the public interest and to secure compliance with the standards and requirements specified above. In all cases in which special uses are granted, the Town Board shall require such evidence and guarantees as it may deem necessary as proof that the conditions stipulated in connection therewith are being and will be complied with.
